academic

(adjective) /ækeˈdemɪk/

of or relating to performance in courses of study

journey

(noun) /dʒɜːni/

an act of traveling from one place to another

YOUR ACADEMIC JOURNEY

Your EC academic journey starts when you book your course. You will have access to a curriculum that is highly structured to meet international standards, yet personalised to meet your needs. Your results will be real and measurable.

EC gives you:

A Fully Mapped Curriculum

designed and mapped to the global standard, the Common European Framework for Languages, an internationally accepted measure of language learning

Defined Learning Outcomes

providing you with clearly defined skills and abilities for each level so you will know exactly what you need to do

Outcome-Focused Learning

lessons, activities, homework and personal direction that will guide you through each level, along with self-study and continued practise outside of class

Regular Assessments

you will be assessed every week in class and every five weeks on your overall progress, enabling you and your teacher to focus on areas where you need the most improvement

OUR ACADEMIC METHODOLOGY INCLUDES:

AUTHENTIC COMMUNICATION

You will learn through the Communicative Approach, which emphasises the importance of spoken and written communication, and the language needed to communicate in real-life contexts. You will learn about the systems of English and how the language functions; and you will be able to practise your English language skills in everyday settings as you complete real-world tasks.

CLEAR OBJECTIVES

Your lessons will include concise, measurable learning objectives, with clear outcomes that provide you with a 'road map' for progress. At the end of each lesson and instructional week, you will have a chance to think about what you have accomplished, and your teachers will give you feedback and additional support in the areas where you most need it.

PERSONALISED FEEDBACK

To help you learn the right structures and most appropriate uses of English, your teacher will provide you with individual feedback on your language skills to help you correct any errors. To help you succeed, your teacher will consider your learning needs based on various aspects, such as your native language, your cultural background, and your previous study of the language.

GUIDED PROGRESS

Your performance is actively monitored by your teachers and the academic team to make sure you stay on target with your learning. If you need help, they are available to provide support and guidance to get you back on track.

CULTURAL AWARENESS

Your EC family is sensitive to your cultural background, and the staff receives ongoing training in how to provide you with the best personalised support.

CONTINUED RESEARCH AND DEVELOPMENT

Your EC academic team is committed to providing you with the latest in learning techniques. The team is continuously involved in research and development to ensure that the most effective methodologies are used in the classroom and for your assessment. Cutting-edge technology is integrated throughout our systems to enhance your experience.

At EC we collect data on student learning through online testing and this is used to carefully target curriculum development and course improvements to ensure your learning journey is continuously reviewed.

HOW YOU LEARN

At the start of each class, your teacher will explain the objectives for the lesson. During class, you will learn and practise language skills in authentic contexts to complete real-world tasks. You learn by practising the new language and speaking to your classmates. Your teacher will give you feedback on your language use and your performance on the tasks to ensure your learning. At the end of the lesson, your teacher will again review the objectives so you can see the progress you are making.

After the class, the learning continues. You will have targeted homework which helps you to practise real conversations that include what you learnt in class.

Working with EC Online

Preparing for the day's lesson

A TYPICAL LESSON

Step 1 – When class starts, your teacher says the objective of the day's lesson is to have an effective job interview where you can ask and respond to questions.

Step 2 – In class, you listen to sample interviews, analyse language, learn key words and phrases, and practise interviewing classmates and staff. By actively participating in these tasks, you will learn the language needed to successfully conduct an interview or be interviewed.

Step 3 – After class, your homework assignment is to interview your roommate, classmate or host family member. This additional effort outside of the classroom helps you work on problem areas and gain confidence as you realise your understanding has increased and you can effectively speak English in this context.

EC ONLINE

From the moment you book until you leave us, you will have access to EC Online, your personal learning tool which helps you manage your learning progress.

With EC Online, you can test your starting level, track your progress, get insight into your strengths and weaknesses, gain access to online practise materials, and interact with your teachers outside the classroom. EC Online also gives you access to EC Advance, the powerful needs analysis tool that diagnoses your problem areas and helps to create your personalised learning plan.

EC Online lets you:

- **Begin learning and participating before you arrive:** Take a placement test and receive learning materials based on the result. You can also find your first day schedule, along with weekend activities and information about your school and destination.
- **Tell us your goals:** Take the pre-arrival survey to help us understand your goals and customise your experience to meet your needs.
- **Personalise your learning:** Get a customised playlist of learning materials based on your needs.
- **Take tutorials:** Use the one-to-one tutorials to receive specific feedback and recommendations for improvement from your teacher.
- **Track your progress:** Use the customised assessment system to see how much progress you can expect to make and if you are on track.

SPOTLIGHT:

EC BOSTON VOLUNTEER CLUB

At EC Boston, students join the Volunteer Club to enjoy the authentic experience of talking with native English speakers while doing something amazing for the elderly members of the local community.

Every month, students travel to Hale House, a residential care home with a diverse senior population, to participate in small group discussions with the residents. The students share stories about their lives and their own culture, and hear about the life experiences of the residents. This gives students a greater understanding of the culture and community in which they are studying, and allows the seniors a chance to share their knowledge and insights.

The programme helps students practise their English skills in a real-world setting, while giving back to the local community.

YOUR GOALS, OUR PROMISE

THE EC PROMISE IS VERY SIMPLE.

If you study Intensive English with us (30 lessons per week) for ten weeks and **fully commit** to your learning programme, we promise you will progress at the rate shown on the progress chart below.

Our promise is backed by science and real data. Having analysed the progress of thousands of our students*, we know what they need to do to succeed. Students who are **fully committed** to their programme take the following three steps to progress:

1. attend 96% of their classes;
2. complete at least three homework assignments weekly and average a score of 9/10;
3. actively participate in lessons and average a score of 9/10 for participation and motivation.

Your teachers will support you, monitor your progress, and show you how to keep moving forward. If you follow your teacher's instructions, and **fully commit** to your learning programme by taking these three steps, we promise you will succeed.

And this is our further promise to you: if you do everything required but you do not progress as expected, we will give you the additional lessons, help and support you need, at no extra cost, to maximise your progress.**

Our science is real. Our promise is true. We believe in you and our number one goal is to help you succeed.

* Analysis covered a 12-month period in 2016/2017, and included all EC students who took a placement and exit test.

** Students who do not progress and wish to receive the EC Promise of extra lessons and support must contact their Director of Studies at least one week prior to departure. Other terms and conditions apply. Speak with your EC contact for more details.

In many residences, students are housed together, providing them with more opportunities to practise English, often with native speakers. Our goal is to offer excellent accommodation, which is why all our accommodation has been thoroughly checked by the EC team to ensure it meets our standards for safety and cleanliness.

There are great benefits to living in EC accommodation. You can make new friends by sharing a twin room with a roommate, or enjoy time on your own in a single room. Certifications in the fields of Biosciences, Business and Management, Software Development and Technology are available, along with unique opportunities to learn from and network with industry professionals and experts. Students may also qualify for a year of full-time work after graduation.

In addition to UCSC, we have launched International Pathway Programmes at leading universities in the United States, including DePaul University in Chicago, Illinois; University of Hartford in Hartford, Connecticut; and Pacific Lutheran University near Seattle, Washington. An on-campus programme at the State University of New York (SUNY) at Fredonia is also offered where students may come to the US to learn English prior to entering the university.

Studying with mature students

Corporate Social Responsibility (CSR) is a central part of life in the EC world. We believe it's our duty to be actively involved in the communities that have welcomed us and helped EC to grow into the international presence it is today. Our Fundraising Policy allows us to match funds raised by our staff for global and local campaigns, and our centres are actively involved in local community projects for charities of their choice.

From school-specific initiatives such as environmental clean-ups, volunteering and fundraising for local charities, to larger projects like our partnership with United World Schools (UWS) to build schools in the world's poorest regions, giving back is close to the heart of the EC family.

EC IN CAMBODIA

In early 2016, we teamed up with United World Schools (UWS), an international charity dedicated to improving the lives and prospects of children in some of the world's poorest regions by giving them the opportunity to receive an education. When we met with the charity, we knew they were the right organisation, and we agreed to work together to build a school in Cambodia.

In February 2017, we sent a team of EC staff volunteers on a 10-day trip to Ban Houy, Cambodia, a remote village that's home to more than 200 children and their families. We were all eager to see the new school where the children of Ban Houy would spend their time learning their national language (Khmer), as well as numeracy, music, arts and crafts.

The EC team spent time with the local families and the children, and shared different teaching methods with the teachers at the new school. Everyone involved in the trip found the whole experience to be both humbling and very rewarding, especially after seeing the children's joy in having a school to attend.

The new school in Don Lo village

In June 2018, we completed our second school at Don Lo village, just a few miles from the school at Ban Houy; and in 2019, we plan to send a team to visit both schools to once again work with the children and teachers.

We also brought Cambodia to EC by sponsoring two UWS team members to study English at EC Brighton for six weeks. The team members enjoyed their study time and not only took back several new ideas for the local teachers in Cambodia, but also a much-improved ability to speak English with volunteers.

At our schools, we are introducing the work we do with UWS through a series of talks and the development of new teaching materials. By understanding the importance of 'teaching the unreached' – providing schools for the 60 million uneducated children around the world – our students, through awareness raising and fundraising, can truly help make a difference to young lives.

This initiative is very important to EC and we want to continue helping to provide education to children around the world. We have once again pledged that **for every student who completes a booking with EC, we will donate 1 Euro (€1) to our CSR initiatives like EC in Cambodia.** Our goal is to keep working with dynamic organisations like UWS to build more schools and help more children to fulfil their dreams of an education.

This pledge is our way of saying 'thank you' to every student who chooses EC to help them achieve their dreams of fluency.

It's how we will help change the world to a better place for those we may never meet.

It's how we give back.

STUDENT INSURANCE

We have created a special insurance policy with trusted insurance provider guard.me to ensure you feel protected and secure when you travel and study with us.

Our partner, guard.me, has won the Language Travel Magazine Star Award for Best International Insurance Provider five times and is the only provider with 'Super Star Status'.

This special policy has been designed to suit the specific needs of our students who travel abroad to study on our adult courses, and provides a very good level of cover for all destinations.

Enrolment is extremely easy and can be done at the same time as booking your course. You will receive your guard.me ID on the first day of school. If you need a visa to travel, you will receive a visa letter directly from guard.me which you can use when applying for your visa.

A mobile phone app is also available for download to ensure you have easy access to your policy details at all times.

Your policy document is available in 13 languages to help you understand it completely. In the unfortunate case that you may need to make a claim, you will have the highest level of support from the guard.me team who can communicate with you in multiple languages.

Your insurance cover will vary slightly by your destination country as follows:

US AND SOUTH AFRICA

This insurance will cover you for accidents and emergency illness up to a maximum of \$2m. **It is important to know that even if you choose not to take this insurance option, by law you must have health insurance to study in the US.** This insurance policy covers you without excesses or co-insurance.

CANADA

This insurance will cover you for accidents and emergency illness up to a maximum of \$2m, without excesses or co-insurance.

IRELAND

This insurance will cover you for emergency medical and repatriation expenses up to a maximum of €10m, and personal liability coverage to a maximum of €2m.
