don Quijote summer programs

Welcome

Message for the parents

don Quijote summer programs share the ideal of removing frontiers from communication together with millions of people worldwide. We have the ambition of creating the most fruitful cultural experiences mixing international students from 85 countries living with Spanish children to enable people's personal and professional growth in the Spanish culture.

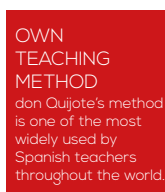

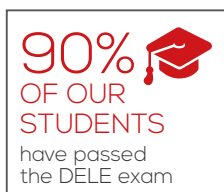

We are people caring about people. For our team since 30 years, every student we meet is an opportunity to teach and learn while enjoy the summer and practicing sports and activities discovering Spain. We love the idea that putting ourselves in their shoes is the way to get the best experiences together.

We believe that through education and sports with activities people can gain personal and professional growth, academic and intellectual advancement, inter-cultural understanding and respect. Our organization is proudly committed to continuously deliver these for both our team and our students.

don Quijote Commitment

Learning Spanish and getting deep into Spanish culture mixed with Spanish students is a fascinating path for individual growth. Through more than 30 years, we have learned much more: sharing in 32 nationalities, understanding the meaning of respect and mutual enrichment regardless any difference of race, age, country of origin. We are proud about don Quijote campers. And we are incredibly thankful about witnessing every year the birth of friendship relationships that will last beyond the Camp experience.

EXPERIENCE

For the past 30 years, don Quijote has offered residential, Day Camp and Homestay programs for children and teenagers during the summer.

Our staff members have an average 8 years experience working at our camps and are trained at our own camp Councilor School. In fact, a number of alumni have become our staff over the last few years.

SUPERVISION AND 24 HOUR CARE

Our top priority is the campers' safety and well-being. Our staff oversees that each camper has a balanced diet or one adapted to their needs, that they follow a optimal sleep cycles and are attended immediately should their health require it.

EXPERIENCED STAFF AND OWN METHODOLOGY

Our staff is made up of native Spaniards, 90% of whom speak English and other languages. The vast majority returns year after year, all united by the same goal: to make your child's summer the most enjoyable possible! We want to help campers to develop their spoken and listening skills. We follow the European Framework for languages in terms of the skills we will be teaching, but these will be developed in a more natural setting by exploring how we use the language in practical situations.

MULTINATIONAL ENVIRONMENT (60% Spaniards)

Our campers come from more than 32 countries, which creates a uniquely diverse environment for developing linguistic and interpersonal skills. By bringing together students from all over the world, these courses allow international youth to make Spanish friends their age, acquire a profound understanding of the Spanish way of life and increase their awareness of a variety of world cultures.

CAMP ADVISORS AND PERSONALIZATION

Our team of specialist advisors will recommend the camp or destination that best suits the characteristics of the person or his academic and recreational needs. In the same way, they will recommend a personalized itinerary of activities and trips so that the students will get the most out of his experience at our camps.

ACTIVITIES AND EXCURSIONS

Camp activities done in multicultural groups instill the values of teamwork and individual responsibility while participants enjoy and have fun besides maximize social relationships and friendship between students.

On the other hand, we know that learning takes place both inside and outside the classroom, which is why our camps include excursions to immerse the campers in the Spanish way of life and feeling like locals.

FRUITFUL summer lessons

Learn about teamwork, public speaking, listening, etc. while making friends from all over the world.

Marbella Alborán campers in an outdoor class.

Our summer Spanish and English language courses are organized into 20/25 lessons per week, with 4 to 5 lessons every day, Monday through Friday (except at the Marbella Albergue Summer Camp, where students receive 25 lessons per week). Each class has the duration of 45 minutes and we set a maximum of 14 students per class in order to ensure individualized attention. The carefully designed curriculum emphasizes conversation and communication, so that students may take full advantage of their surroundings and apply what they're learning by speaking with friends during the rest of the day. The morning class hours are the only time when Spanish and international students are separated; they rejoin in the afternoon and at night for a variety of activities. The syllabi are 100% compatible with the U.S. credit system.

LEARNING A LANGUAGE

has never been so much fun!

Our Spanish Teachers

The success of all learning efforts depends on a teaching team trained and equipped to motivate their students. Therefore we've carefully selected a highly qualified and energetic faculty for our camps. The Spanish teachers are all natives with at least 5-year university degrees in Spanish Linguistics and Teaching Spanish as a Foreign Language. Most of them have a Masters and/or Doctorate in Spanish and all hold the CAP (Certificate of Teaching Ability). Our summer camp faculty is experienced in teaching young people of various ages and implements a wide array of techniques and activities that speak to every age group and learning type.

6 Levels

Every student takes a placement test on the first day of classes in order to determine their language level. They are consequently placed into one of 6 levels, from very beginner to proficiency.

A1

basic

A2

B1

B2

C1

Methodology

The language curriculum is designed keeping in mind at all times that we are a Summer Camp. In other words, classes are conceived to be sufficiently interesting and entertaining to motivate students to the fullest, but we simultaneously optimize class time by encouraging conversation and discussion in a serious and professional manner. Our aim is for students to enjoy themselves while learning as much as possible in a short period of time. The methodology is centered on a communicative approach, utilizing diverse techniques to cover the fundamentals of language learning: grammar, speaking, listening, vocabulary, pronunciation, writing and inter-cultural competence.

Teaching Materials

Our teaching materials are designed for each age group and subdivided into varying levels of linguistic competence. The kit, comprised principally of a text and workbook corresponding appropriately to each class, is issued to the student on the first day of the course. Other multimedia audio-visual tools are also employed to present lessons and take full advantage of our modern facilities.

Certificate

Each student will receive a certificate detailing accomplishments realized during his/her stay on the last day of the session.

Camp Director

Besides the executive directors of don Quijote, the Camp Director at each site holds the highest level of responsibility. He/she works very closely with the coordinators and counselors to make sure the camp runs smoothly and attends to the needs of every member of the school.

Counselor Coordinators

One Coordinator is assigned to each of 3 categories: Kids, Junior and Senior, thus creating different campuses within the same facility. The

Coordinator works closely with the counselors/coaches to develop and supervise camp activities, as well as monitor student participation to ensure that each camper makes the most of their summer.

Counselors

One counselor is assigned to each group of 8-12 campers at every summer camp. They spend 24 hours/day with their group, act as mentors and tutors and take care of any needs or concerns the students may have. At the Granada Junior Program, there will be 1

tutor for every 12-15 students. These tutors are available 24 hours a day and accompany students on all extracurricular activities. The counselor team is made up of qualified bilingual or Spanish tutors.

OUR STAFF

don Quijote carefully selects our camp coordinators, directors and counselors based on their experience, expertise and, above all, dedication to the students. Throughout the year, the camp coordination team is dedicated to adequately training the counselors for the summer. They are shown the camp's philosophy and the dedication necessary to be a staff member at our camps.

In fact, some campers have even ended up becoming camp counselors at this school.

Residential stay

The residential stay embodies the essence of our summer language camp philosophy: by living and be mixed with 100% Spanish and international students, studying, playing and practicing languages together **24 hours a day** in a totally multicultural environment, campers will learn interpersonal and linguistic skills to last a lifetime. When they choose our 'star' program, Spanish and international campers are only separated during the morning language classes. They'll experience everything else together, from morning wake-up to sports, cultural workshops, recreational activities, excursions, meals and much more. It's the perfect recipe for making life-long friends from all over the world! Please note that the dormitory capacity of each center differs, and that the Seville residence holds international students only.

TAKE ENERGY and keep healthy

Our staff monitors closely monitor each camper to make sure his or her diet is balanced and complete. It's time to get a taste of Spanish culture!

MEDITERRANEAN DIET

Whole foods like cereals, lentils and nuts form an integral part of the Mediterranean diet. They are high in fiber, which aids your digestive system, and are far healthier, keeping you fuller for longer, than white bread and pasta. Nuts make a great mid-morning or afternoon snack, although they are high in calories so you shouldn't really eat more than a handful a day. They also contain natural and essential oils that help your hair and nails to shine!

Aside from the warm sun, clear blue sea and soft sand, living on the Mediterranean coastline certainly has its advantages. All local food markets have fresh fish and seafood each morning lining their stalls, so there is no excuse for not consuming a healthy amount. Oily fish, such as sardines and anchovies, which are caught in abundance off the Spanish coast, contain omega-3 fatty acids and are low in calories. Omega-3 is excellent for your heart and brain, but bake, grill or cook your fish in olive oil, not butter!

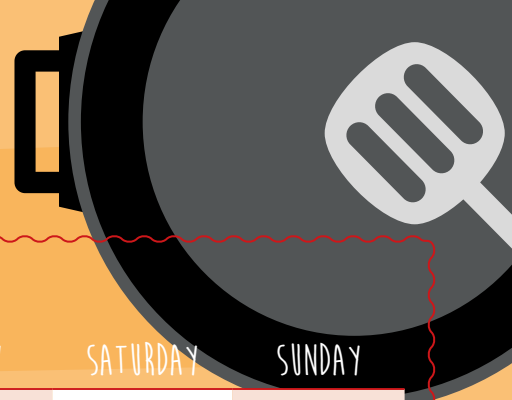

SPECIAL DIETS

Our kitchens are equipped to prepare food for students with special dietary needs (vegetarian, allergies, etc). Simply notify us about special requirements upon enrollment and we will pass the information along to the camp directors and kitchen personnel.

Did you know? Our staff is trained to make sure every camper enjoys a healthy diet during their stay at our camps. We know that great food gives them the energy they need to have a great time every day!

PRACTICAL INFO

Uniform

We suggest that students purchase the camp uniform package in order to avoid concerns over what to pack, losing or damaging personal items, etc. The package includes 5 T-shirts, 1 sweatshirt, 2 pairs of shorts and a baseball cap. You should order the uniform at least 10 days before the student's arrival; it will be delivered to the student during the first day of camp.

Phones and E-mail

We know how important it is for you and your child to be able to keep in touch, so we've made it easy for campers to call home. Every student will receive an don Quijote international calling card upon arrival that can be activated and charged with 5 € and up at the camp's reception desk. don Quijote phone cards can be used from any telephone, whether a land line on-campus or an off-campus phone while students are on an excursion.

Campers may also use their cellular phones to call home, but only during the designated hours set by each camp. Each facility has an emergency number in case you need to contact the camp director. We will send you this information one month before your child's arrival. All 9 camps have computers with e-mail access.

Laundry

Our programs include laundry service once every two weeks. We ask that students bring a laundry bag and highly recommend marking your child's full name on all personal articles.

Pocket Money

Upon arrival, students may deposit their money in the camp bank for safekeeping and withdraw money as needed. Each student's group monitor will note deposits and withdrawals and keep an eye on the student's spending habits, in order to help them budget their money. If you anticipate that your child will need additional money, it will be your responsibility to deliver said funds, because don Quijote cannot receive or deliver money to students at our camp sites.

Permission to leave the grounds

Camp personnel and directors are aware that many of our senior campers enjoy a certain level of freedom at home and expect to be able to meet with friends and go off-campus in an unsupervised fashion. For this reason we allow our students a limited number of unescorted trips off-campus during each 2-week session. The specific days, frequency and times are determined by each camp director.

This is possible if and only if:

The student was born in 2000 or earlier (for 2016) and 2001 (for 2017).

The student submits a signed consent form from his/her parents.

*Marbella Alemán is the only camp where this option is not available.

Medical assistance and insurance

Each camp has a health center and 24-hour first aid care on-site to ensure the health and well being of the students. If your child has any chronic medical concerns, allergies, special dietary needs or other requirements, simply notify us in writing, preferably at the time of registration. If your child plans to bring their own medicine to the camp, please send it with him/her, along with full instructions on its correct use.

Additionally, it may be advisable for the student to carry a medical report of their special needs from his/her doctor. All students in Spain are covered by a standard insurance for medical assistance, which is included in the price of the program. However if you would like a premium insurance policy, we advise you to purchase this in your own country.

Such documents will only be sent to cover the amount of course time initially contracted by the student. don Quijote will send out, free of charge and to any student who asks for them, the following documents (if and only if the total cost of the program has been paid): confirmation of the Spanish program chosen by the student; invoice for the total cost of the program in question (course + accommodation).
